Established in 1987, Brian Scully Services is a leading Irish Air Conditioning Company focusing on supply and installation of Air Conditioning Systems.

We are an approved dealer with Mitsubishi Electric since 1993 and are the sole Mitsubishi Electric Partner in Ireland that can offer 7 year warranty on their products.

We provide a 24/7/365 service for customers in the event of breakdowns.

Our team consists of highly qualified electricians, refrigeration and air conditioning engineers. All have been fully trained both in-house and by Mitsubishi Electric Dublin, Scotland, and Germany.

All vehicles have a Vehicle Management System installed. Should a problem arise at a particular site, we can live-track to ascertain which engineer is closest at any given time.
